

# SALLY STRAND

## 2020 Workshops

*"I sincerely can't remember a more powerful learning experience in my 30 years of painting. You have inspired me and lit a fire." — Janeen Schissler*

**COLOR OF LIGHT** . . . Focusing on color and light students paint from costumed models and still life. Optical mixing of layered color, analysis of the effect of light, essential elements of strong composition and other art principles are explored.

**New! COMPOSITION AND LIGHT** . . . This class focuses on the foundational elements of composition and design examining the principles of pictorial space, balance, dominance, massing, contrast of content, and the use of opposites. Students see how light is a major tool to create a compelling motif, key a painting, and evoke emotion.

**In all workshops** each student receives individual attention and critiques. Demonstrations, lectures and a slide show are designed to give students tools to achieve dynamic paintings.

**Sally Strand** is a PSA Hall of Fame Honoree and the recipient of numerous top awards, among them the PSA Master Pastelist distinction and the IAPS Master Circle Honor. Widely published in books and magazines, her work is also represented in many private, corporate and museum collections including the Butler Institute of American Art. She holds an MFA degree from the Laguna College of Art and Design and teaches master classes and workshops internationally.
